

New School Proposals in Basildon and Billericay

As communities in Essex continue to grow and develop, so does the Berlesduna Academy Trust. The Department for Education is currently inviting Academy sponsors to oversee the opening and running of new schools.

Berlesduna prides itself on being an inclusive, forward thinking education provider. Improving the opportunities, attainment, and life chances for the local Essex communities we serve is central to our vision. Basildon Council's emerging local plan has the requirement to deliver a number of schools to accommodate nearly 20,000 new homes, which includes a secondary school to the east of Basildon. Berlesduna would like to support the ambition and plans for Basildon by delivering a primary school in the Billericay area and a primary and secondary school in east Basildon. The proposed primary schools, Burnt Mills Primary and Greens Farm Primary, will be two form entry (2 FE) and have a 30 place nursery. The proposed secondary school, The Colin Moore School will be four form entry (4 FTE). The schools will have an inclusive educational ethos, will support other local schools and will follow the national curriculum.

If our applications are successful, we will be working closely with Essex County Council, Basildon Council and the local communities to ensure that the new schools meet the needs of the local communities and provide schools which they will be proud of.

Welcome to Burnt Mills Primary School

Burnt Mills Primary School will be a brand new two form entry school in east Basildon catering for children from Reception to Year 6 and with a Nursery. Although we will begin with only Reception and Nursery children, the school will grow year on year until we have a full primary intake of 420 children from early years to upper Key Stage 2.

As we grow, the school will be well equipped to meet the local, and increasing, demand for school places over the next few years. Working in conjunction with all stakeholders we will meet the needs and aspirations of the local community by offering high quality care and provision before, during and after the school day.

We are proud to be part of Berlesduna Academy Trust; a local Trust with the aim of providing the best possible education for every child in the Berlesduna family. We are a strong local partnership of schools. Berlesduna has a strong and cohesive identity, they recognise that each school within the Trust has its own unique characteristics. Collaboration and joint working ensure that all schools in the Trust can share in, and benefit from, each other's strengths. Values such as enjoyment, inclusion, respect and empathy are the foundation of all the Berlesduna schools and this ethos of high expectation has resulted in Berlesduna becoming the success it is.

News

Parents, carers and the local community are invited to a drop in session for the proposed new Burnt Mills Primary School to provide views which will help shape outline proposals for the new primary school's vision and curriculum. We are keen to gather views on how we can develop links and partnerships with parents and community groups to encourage and enable them to play a role in the school and in the pupils' development. We would also like to gather views on how we can develop local engagement and volunteering opportunities to encourage and support pupils to contribute to their local and wider community as active citizens.

The drop in session will take place on 23rd October 2019 (7.00pm – 8.00pm) at Felmore Primary School, Davenants, Basildon, Essex, SS13 1QX

If you are unable to attend the drop in session but would still like to express your views or make a comment, please put these in an email to Lisa Perry at lisaperry@berlesduna.co.uk.

Welcome to The Colin Moore School

The Colin Moore School will be a brand new four form entry secondary school in east Basildon catering for students from Year 7. Although we begin with only Year 7 students, the school will grow year on year until there is a full secondary intake of 600 students from Key Stage 3 and Key Stage 4.

We believe that all young people deserve the highest quality of education which will **engage, inspire and challenge**; so that everyone meets their full potential. We strive to create a safe and happy learning environment which promotes independence and high expectations for all students. We are determined that our students will be successful and will leave the school as confident, highly educated young individuals, who are able to contribute positively to society.

As we grow, the school will be well equipped to meet the local, and increasing, demand for school places over the next few years. Working in conjunction with all stakeholders we will meet the needs and aspirations of the local community by offering high quality care and provision before, during and after the school day.
